Agility Course

For dogs with some obedience training

Objective: An obstacle course for the dogs to complete in the best time. The handler runs with the dog and directs it with verbal commands and hand signals over hurdles and various types of obstacles.

Training consists of:

- Keeping attention on the handler and responding to commands.
- Teaching the dog to enter and go through open curved tunnel and a collapsed (closed) tunnel.
- Teaching the dog to walk on a slanted and elevated narrow ramp (the Dog Walk) and a Teeter-Totter.
- Teaching the dog to walk over the A-frame scale
- Teaching the dog to run through the Weave Poles.
- Teaching the dog to jump onto the Pause Table and obey the command to stay there.
- The dog must stay on the Pause Table until the voice command directs him to start running the obstacle course.
- Jumping various hurdles
